To Whom It May Concern:

I am writing in response to the proposed plan of Southwest Festivals, Inc., and Richard Korsh dba Scarborough Faire in Waxahachie, Texas constructing a water treatment facility across the street from my neighborhood. I am STRONGLY OPPOSED to this proposal for many reasons.

First, the water treatment facility will cause a smell around the whole surrounding neighborhood and I did not move into the country to smell other people's waste. Second, it seems that the "treated" water will then be put into a creek that runs behind my home and others. This I am not okay with. My child loves to go down to the creek and skip rocks and to have it turned in to someone's dumping ground is disgusting. Third, we live in an area that if we got a really good rain for several days, our land could potentially flood; now we have the Faire wanting to dump an average flow of \$53,000 gallons into that creek daily!!!! Something is not adding up.

Therefore, I am requesting a public hearing and notice by mail of this hearing so that the community surrounding this already disturbing Faire can state our protest. I am now gathering names on a Protest Petition and will submit that to you within the next week.

Thank you for your time.

Sincerely,
